

# Console Solutions for EMERGENCY RESPONSE CENTERS

---

WHERE DESIGN  
MEETS TECHNOLOGY

---

# Safe • Productive • Comfortable 24/7 Emergency Response Dispatch Centers

**Adaptaspace** designs & manufactures a full range of 24/7 “Mission Critical” console systems in standard and fully custom configurations, responding to the evolving needs of today’s 911 Emergency Response Centers and the Dispatchers who work in them.

Our **Human-Centered** design approach applies best practises and knowledge of Ergonomics and Human Factors to ensure our workstation solutions contribute toward the creation of an optimized work environment, which maximizes operational efficiency, and performance through maintaining operator attentiveness, wellness, and job satisfaction.

Quality • Innovation • Value

Adaptaspace's 911 console is an adaptation of our **GENESIS** Console System uniquely configured for 24/7 call center and emergency environments.

Every **GENESIS 911** project is custom designed to meet the specific equipment requirements and layout constraints of each facility yet all consoles incorporate the following common elements:

- human factors requirements, for increased comfort and reduced physical stress;
- equipment and accessory mounting flexibility, to satisfy the needs of each user;
- extensive cable management, for easy installation and access;
- product durability, for 24 hour/7 day operation;
- room layout flexibility, to cater for any space constraint;
- modularity, to allow future equipment and room layout re-configurations;
- high aesthetics, to reflect corporate identity and image.

### Our Product Offerings:

- GENESIS 911 Console Workstations
- Panel Wall Systems
- Flex-Rail and Slat-wall Equipment Mounting Systems
- Display Arms & Mounts
- Personal Environment Controls
- Custom Cabinetry for: Meeting & Training Rooms; Personal Storage; Printer Cabinets; Binder & Reference

**Adaptaspace** has a proven history responding to the unique design and planning demands of 911 emergency response work-environments by providing collaborative design support for room layout design, work flow analysis, console development, and user and equipment requirements.

Standard project support services include:

- Planning Support— concepts, budgeting
- Requirements Analysis — criteria & constraints, key success factors
- Detailed Drawings and Specifications
- Conceptual Design Development — renderings, mock-up consoles
- Delivery & Installation Planning

Our project experience includes some of the most prominent 911 Emergency Response Centers including...
