WHERE DESIGN MEETS TECHNOLOGY

# Safe • Productive • Comfortable
# 24/7 Emergency Response Dispatch Centers

**Adaptaspace** designs & manufactures a full range of 24/7 “Mission Critical” 911 console systems in standard and fully custom configurations, responding to the evolving needs of modern 911 Emergency Response Centers and the Dispatchers who work in them.

Our **Human-Centered** design approach applies best practises and knowledge of Ergonomics and Human Factors to create workstation solutions that support an optimized work environment. By prioritizing operator attentiveness, wellness, and job satisfaction, we help maximize operational efficiency and overall performance.

Quality • Innovation • Value

Each **PROCESS 911** console is custom-designed to fit your exact equipment requirements and workspace layout ensuring a seamless integration into your environment. No matter the configuration, every console is built on a proven foundation of core features:

- human factors requirements, for increased comfort and reduced physical stress
- equipment and accessory mounting flexibility, to satisfy the needs of each user
- extensive cable management, for easy installation, access, and power/data separation
- product durability, for 24 hour/7 day operation
- room layout flexibility for any space constraint
- modularity, to allow future equipment and room layout re-configurations
- attractive aesthetics, to reflect corporate identity and complement facility design
- lifetime warranty built to perform reliably in continuous, 24/7 operations.

## Our Product Offerings:

- PROCESS 911 Console Workstations
- Panel Wall Systems
- Rear Beam and Slat-wall Equipment Mounting Systems
- Display Arms & Mounts
- Personal Environment Controls
- Custom Cabinetry for: Meeting & Training Rooms; Personal Storage; Printer Cabinets; Binder & Reference Material Storage; and more...

**Adaptaspace** has a proven history responding to the unique design and planning demands of 911 emergency response work-environments by providing collaborative design support for room layout design, work flow analysis, console development, and user and equipment requirements.

Standard project support services include:

- Planning Support— concepts, budgeting
- Requirements Analysis — criteria & constraints, key success factors
- Detailed Drawings and Specifications
- Conceptual Design Development — renderings, mock-up consoles
- Delivery & Installation Planning

Our project experience includes some of the most prominent 911 Emergency Response Centers.
